Skills

- Scripting is mainly done with python, but I also know MEL and a little of the C language.
- Can write custom UI from scratch with QT/Pyside.
- Can work well with REZ environments and integrating custom tool sets into pipelines.
- Can use 3rd party plugins for softwares such as Ziva, cMuscle, ncloth/nHair.

Experience

FEBRUARY 2022 – FEBRUARY 2023

Senior Rigging Pipeline TD / Reel FX Animation, Toronto, ON

Much like Digital Dimension, much of my skill sets were to hone in on the Rigging pipeline and help with the creation of tools and cleanup of already established ones.

AUGUST 2021 – JANUARY 2022

Rigging Pipeline TD / Digital Dimension, Montreal, QC

I joined Digital Dimension to help transform their rigging pipeline into something more user friendly and more streamlined.

SEPTEMBER 2019 – AUGUST 2021

Senior Rigger & Rigging Pipeline TD / Tangent Animation, Toronto, ON

Started at Tangent as a senior rigger working on some complex full feature animated rigs. I got to work on both body and facial rigs. My last year at Tangent, I worked as the Rigging Pipeline TD to develop auto rig tools and custom tool sets for the riggers to utilize.

APRIL 2016 – AUGUST 2019

Creature TD & CFX Lead / Mr.X Inc., Toronto, ON

I joined Mr.X and worked on high profile rigs for both highly acclaimed film and television shows. I worked my way up to being the CFX Lead.

Education

JUNE 2014 – FEBRUARY 2016

Bachelor of Computer Science (Animation Program) / Full Sail University, Orlando, FL

The course was an accelerated program on campus. I graduated with a 3.65 GPA and was voted by classmates to receive the Advanced Achievement Award (Honors).
